Privacy Scorecard Extension

Installation Guide

The Privacy Scorecard Extension analyzes websites in real-time and provides a privacy score based on security indicators such as HTTPS, cookies, trackers, and fingerprinting risks.

⚙️ Installation Steps

Step 1: Download the Project

Download the extension files from GitHub.

Step 2: Open Google Chrome

Launch the Chrome browser on your computer.

Step 3: Access Extensions Page

Type the following in the address bar:
chrome://extensions/

Step 4: Enable Developer Mode

Turn ON **Developer Mode** (top right corner).

Step 5: Load the Extension

Click **“Load unpacked”**

Step 6: Select the Folder

Choose the project folder you downloaded.

Step 7: Start Using

The extension will appear in your browser. Click the icon to view the privacy score.
